Move Like Me!

Let's make our learning as interactive as we can. While you are learning about patterns in the wild, here is a fun activity to do while you watch.

Parents, Care-givers & Educators, let your kids know that they need to pay close attention to the Zoo Leader. You will hear them speak about how the animals move in their environments. When they give the clue; that is your cue to move like the animals.

If you hear
CLIMB

Pretend to climb up the side of a mountain any way you choose

If you hear
SOAR

Stretch out wide and fly through the air

If you hear
CHASE

Move as fast as you can on the spot

If you hear
POUNCE

Duck down low and then pop up as high as you can
